Philanthropy makes it possible to carry out the Division’s educational and research missions. The generosity of donors resulted in a number of new gifts in fiscal year 2021.

CAMPAIGN UPDATE
BrownTogether, the most ambitious fundraising campaign in the institution’s history, continues to provide tremendous support for research, faculty support, and medical education. Of the campaign’s original $3 billion goal, $300 million is earmarked for the Division of Biology and Medicine. To date, donors have generously given $266 million.

2022

GROWTH IN EXTERNAL FUNDING FOR MEDICAL RESEARCH SINCE 2013

129%

LEADERSHIP

Mukesh K. Jain, MD, is the eighth dean of medicine and biological sciences at Brown University. His tenure as dean began March 1, 2022. A physician-scientist, Dean Jain is internationally recognized for studies that established a central role for Krüppel-like factors, a family of DNA transcription factors, in cardiovascular biology, innate immunity, and metabolism. Prior to his appointment at Brown, Dean Jain was chief academic officer at University Hospitals health system in Cleveland, vice dean for medical sciences at Case Western Reserve University, and Harrington Endowed Scientific Director of the Harrington Discovery Institute.
On campus, in the affiliated hospitals, and in our community, our faculty, students, and staff are hard at work, unified in their mission to create new knowledge, to teach and to learn, and to change the world through research. These figures tell the story of the growth and development happening at Brown.
